

FITting Solar Into Your Business

A 2 day Residential Grid-Tie course for Solar Professionals

May 10th & 11th

Ontario's Green Energy Act includes a Feed-In Tariff [FIT] for solar electric systems. Home or business owners installing a **10kW system** may be eligible to **receive \$0.80/kWh** for the electricity produced by the system. An expenditure in the range of \$90,000 could give the owners approximately **\$10,000 per year** for 20 years, after which they still own the equipment. This lucrative investment needs qualified installers across Ontario.

Home Energy Solutions is a leading Canadian distributor of solar electric equipment and on May 10th & 11th we have brought together guest solar experts from around North America to teach you everything you need to know about this exciting and growing industry.

Including:

- Overview of the solar electric industry
- The Feed-In Tariff opportunity – the financial case for customers
- Marketing and Sales ideas for Grid-Tie systems
- Solar modules – what you need to know
- Rooftop installation procedures
- Wiring issues and Canadian Electric Code
- Inverter installation procedures
- Inspection, FIT paperwork and applications
- 124 page HES FIT Solar Manual Included

Who should attend:

- Solar professionals looking for Grid-Tie experience
- Electricians
- Home service businesses looking to expand their opportunities
